Harsh Nagar

Software Developer — Java — Python — DSA — MySQL
7819981941 harshn845@gmail.com Haridwar, UK, India
GitHub — LinkedIn — LeetCode — Portfolio

Profile Summary

Computer Science graduate with experience in Java, Spring Boot, REST APIs, AI-integrated applications, and MySQL. Built backend systems and intelligent applications using Gemini API and IBM Watson AI. Strong foundation in Data Structures, Object-Oriented Programming, database design, and problem-solving with hands-on experience in Git/GitHub and software development.

Education

CGC University 2022 – 2026
Bachelor of Technology in Computer Science; CGPA: 8.02 *Mohali, India*

St Mary's Sr Sec School 2020 – 2022
Higher Secondary (Physics, Chemistry, Mathematics); Percentage: 79.6% *Haridwar, UK, India*

St Mary's Sr Sec School 2020
Matriculation; Percentage: 88.4% *Haridwar, UK, India*

Internship / Training

Java Developer June 2024 – July 2024
Bharat Heavy Electricals Limited (BHEL) *Haridwar*

- Worked as a Java Developer on enterprise-level applications.
- Created an Employee Payroll System with comprehensive functionality.
- Enabled accurate payroll calculations by factoring in leave deductions and workdays.

AI/ML Intern June 2024 – July 2024
Edunet Foundation *Online*

- Built a conversational chatbot using IBM Watson AI using NLP and LLM techniques.
- Designed intelligent, context-aware conversational experiences.

Projects

Smart Notification API 2026
Java, Spring Boot, H2, REST API, Lombok
- Built a RESTful notification microservice using Spring Boot to create and retrieve user-specific notifications.
- Integrated H2 database for persistent notification storage and used Lombok to reduce boilerplate code.
- Tested and validated REST APIs using Postman, handling request/response data through structured DTOs and HTTP status codes.

AI Campus Security – Face Recognition System 2024
Python, FaceNet, OpenCV
- Designed a CNN-based deep learning face recognition system in Python for automated security identification.
- Improved detection accuracy using feature extraction and classification techniques with OpenCV.

Smart Email Assistant 2025
Java, Spring Boot, Gemini API, Postman
- Built an AI-powered email generator by integrating the Gemini API into a Spring Boot backend.
- Designed and implemented RESTful APIs (GET, POST, PUT, DELETE) tested via Postman.
- Optimized API performance for faster and more reliable AI-generated responses.

Technical Skills

Languages: Java, Python, C++, HTML/CSS
Frameworks: Spring Boot, Java Swing
Databases: MySQL, SQL
Tools: Git, GitHub, VS Code, PyCharm, Jupyter Notebook, Postman
AI/LLM: Gemini API, IBM Watson AI, LangChain, Claude
Concepts: Data Structures, OOP, REST APIs, Backend Development, Design Patterns, TDD

Certifications

- Google Prompting Essentials Specialization – Google
- Google AI Essentials – Google
- Getting Started with Enterprise Data Science
- Claude Code in Action
- Introduction to LangChain
- 5-Star Coder (Java) – HackerRank
- MySQL – Kaggle
- Foundation Course on AI Readiness – IICT & AI Skills House in partnership with Google & YouTube

Coding Profiles

- 5-Star Java on HackerRank
- Solved 100+ problems on LeetCode (Data Structures & Algorithms)
